PROFESSIONAL SUMMARY

Final-year Computer Sciences student with experience in Android application development, web development, database management, and software engineering projects. Skilled in Java, PHP, Firebase, MySQL, and modern development tools. Passionate about building user-friendly applications and continuously learning new technologies to solve real-world problems.

CORE EXPERTISE

01

Android Development (Java)

02

Firebase Authentication &
Firestore

03

PHP & Laravel

04

Framework Codeigniter

05

MySQL Database

06

REST API

07

Software Development

08

Git & GitHub

09

IT Support & Troubleshooting

10

Game Development

11

System Analysis & Problem
Solving

12

Software Testing &
Debugging

FEATURED PROJECT

My Portfolio

WEBSITE LABORATORIUM DIGITAL UIN CYBER CIREBON

Description

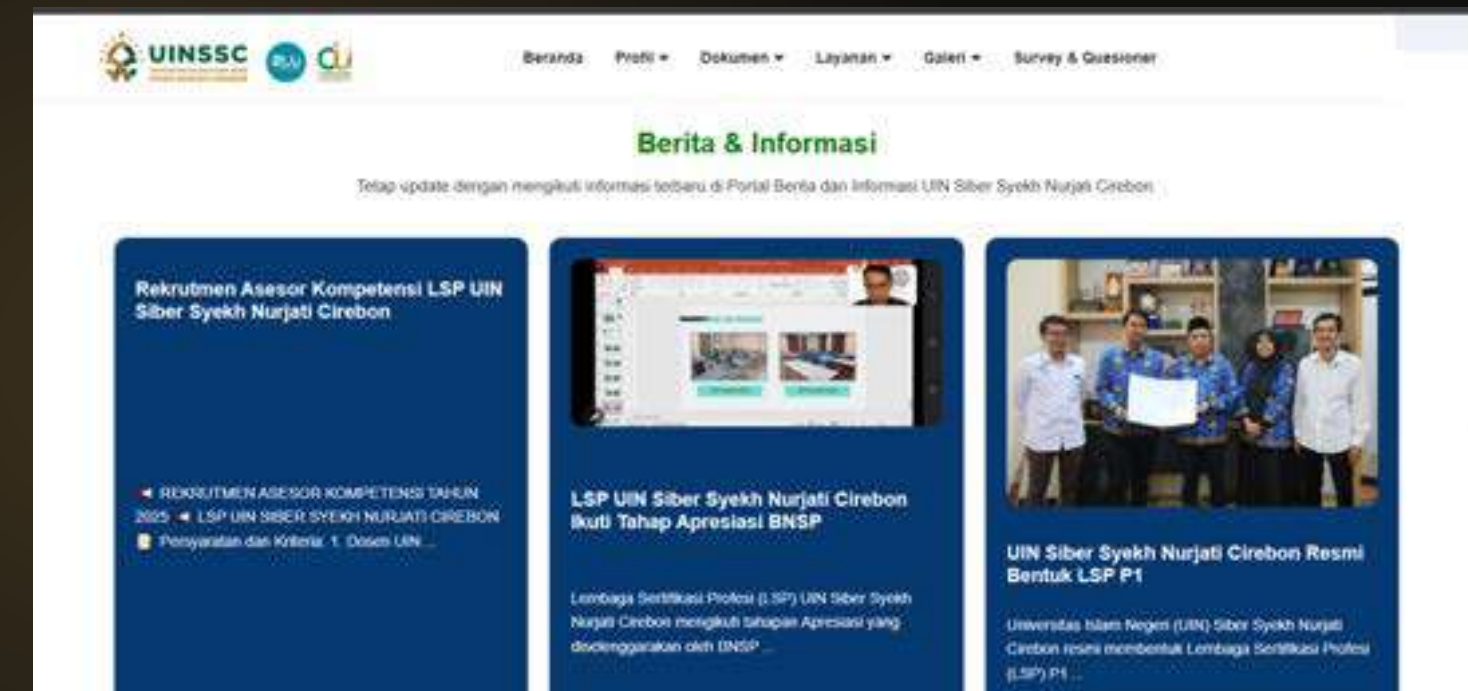

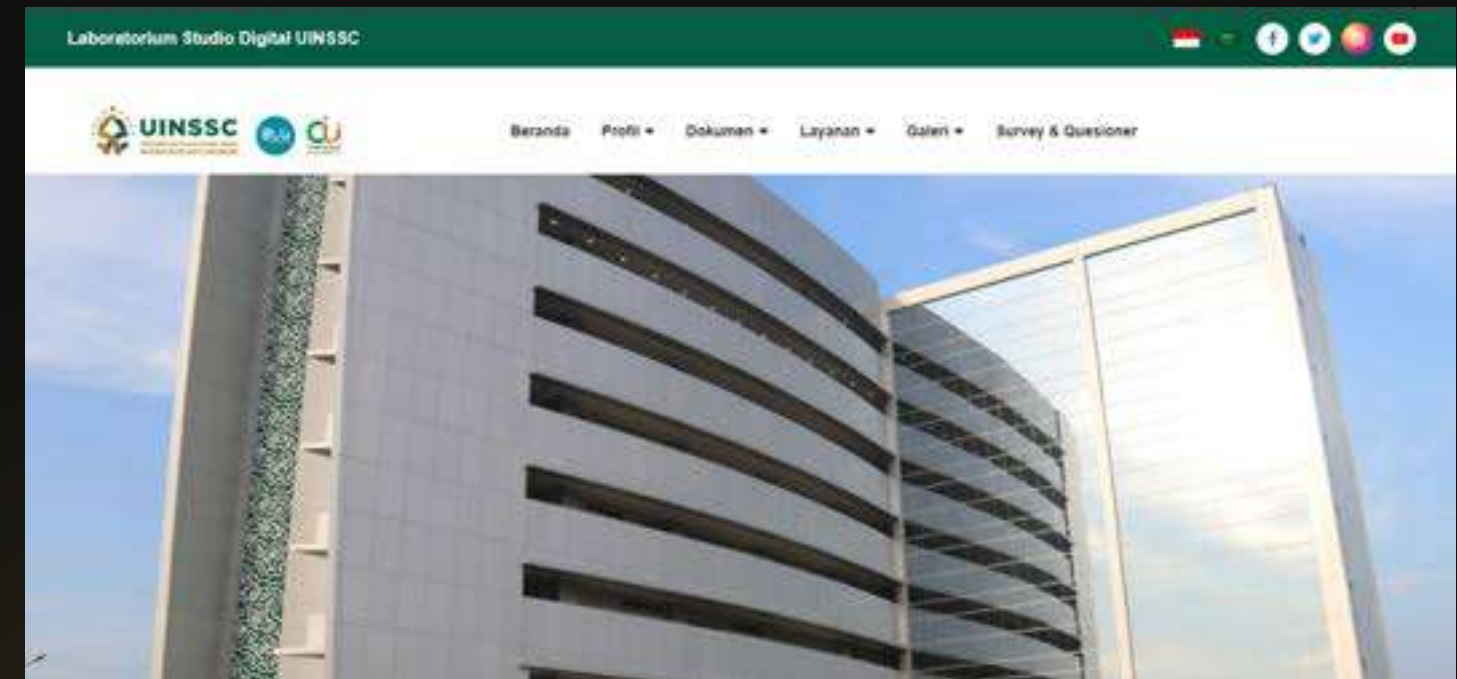

Developed a web-based laboratory management system designed to simplify laboratory scheduling, information management, and administrative operations. The system provides a centralized platform for students, lecturers, and administrators to access laboratory services efficiently while improving overall operational effectiveness.

Technologies

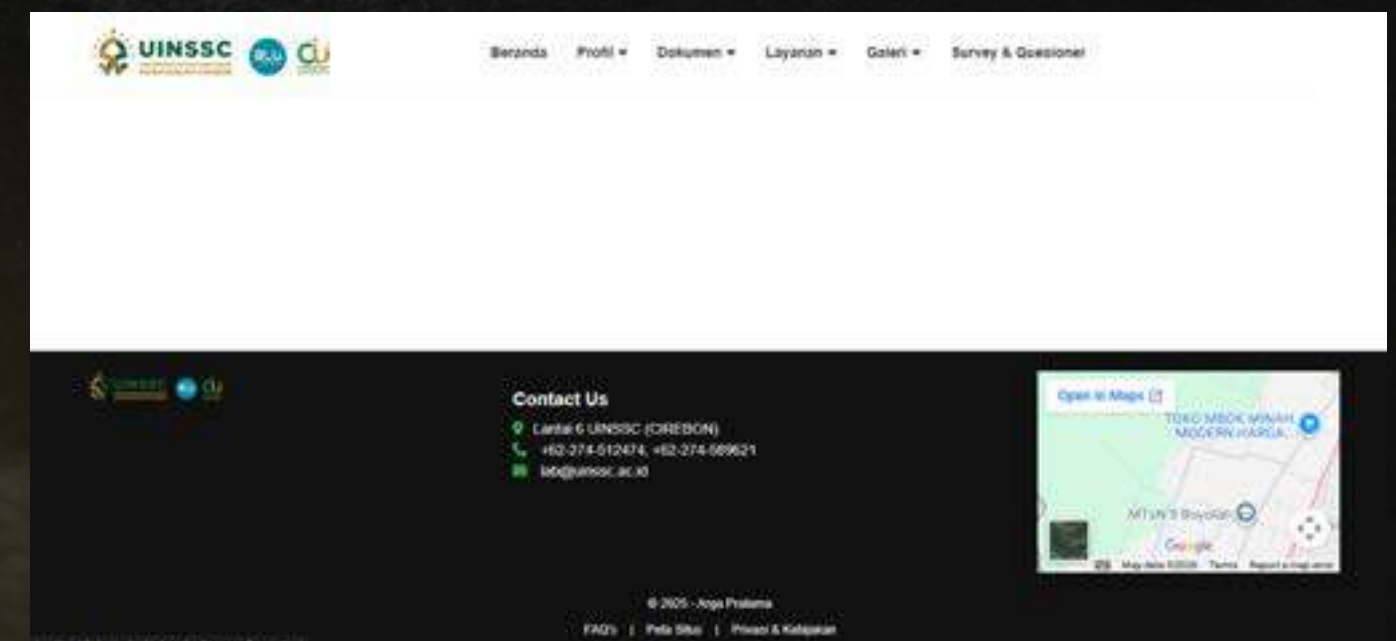

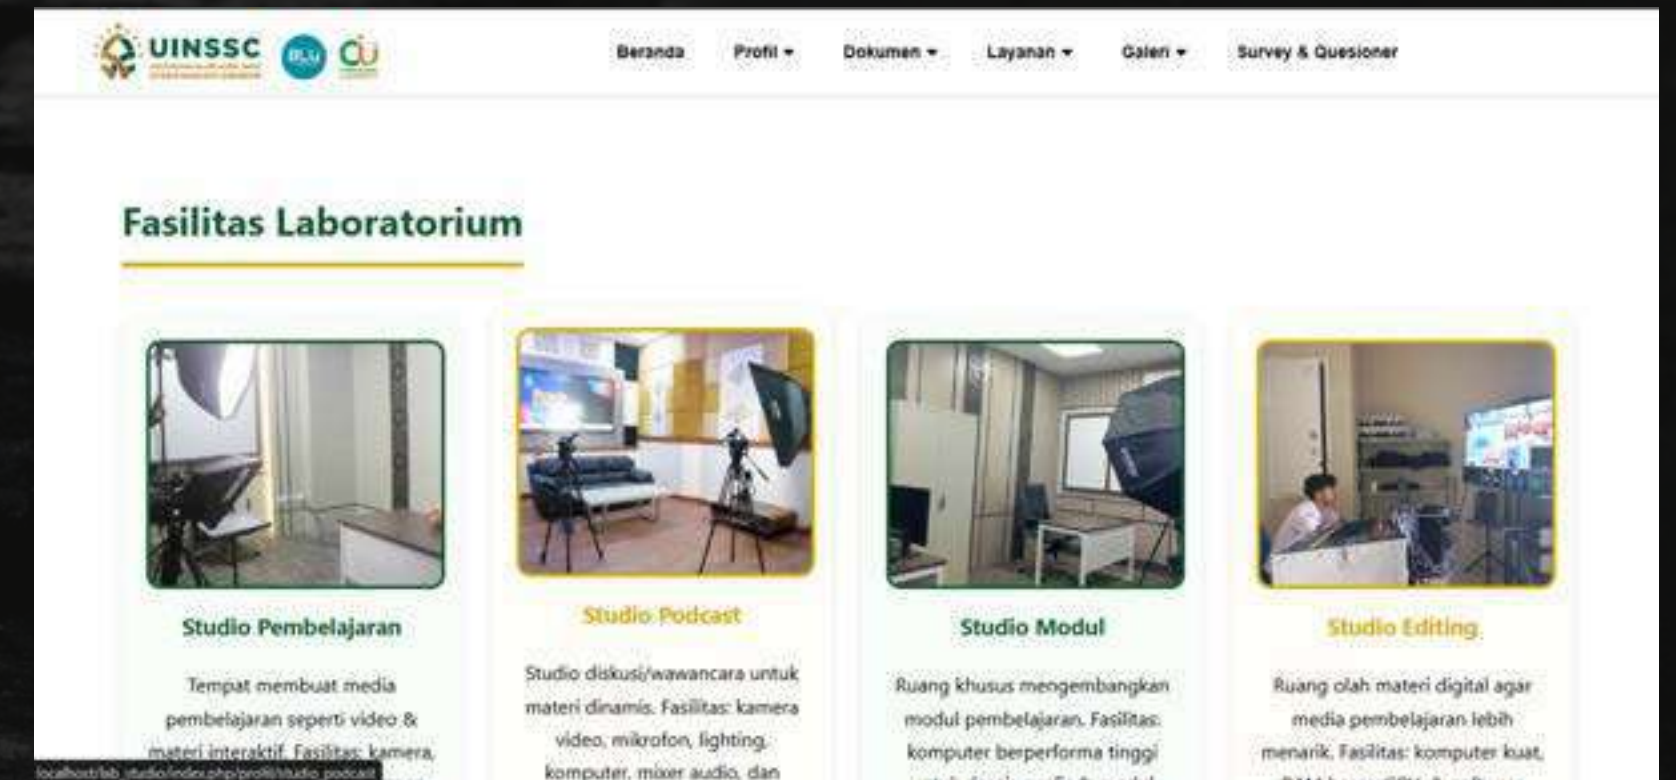

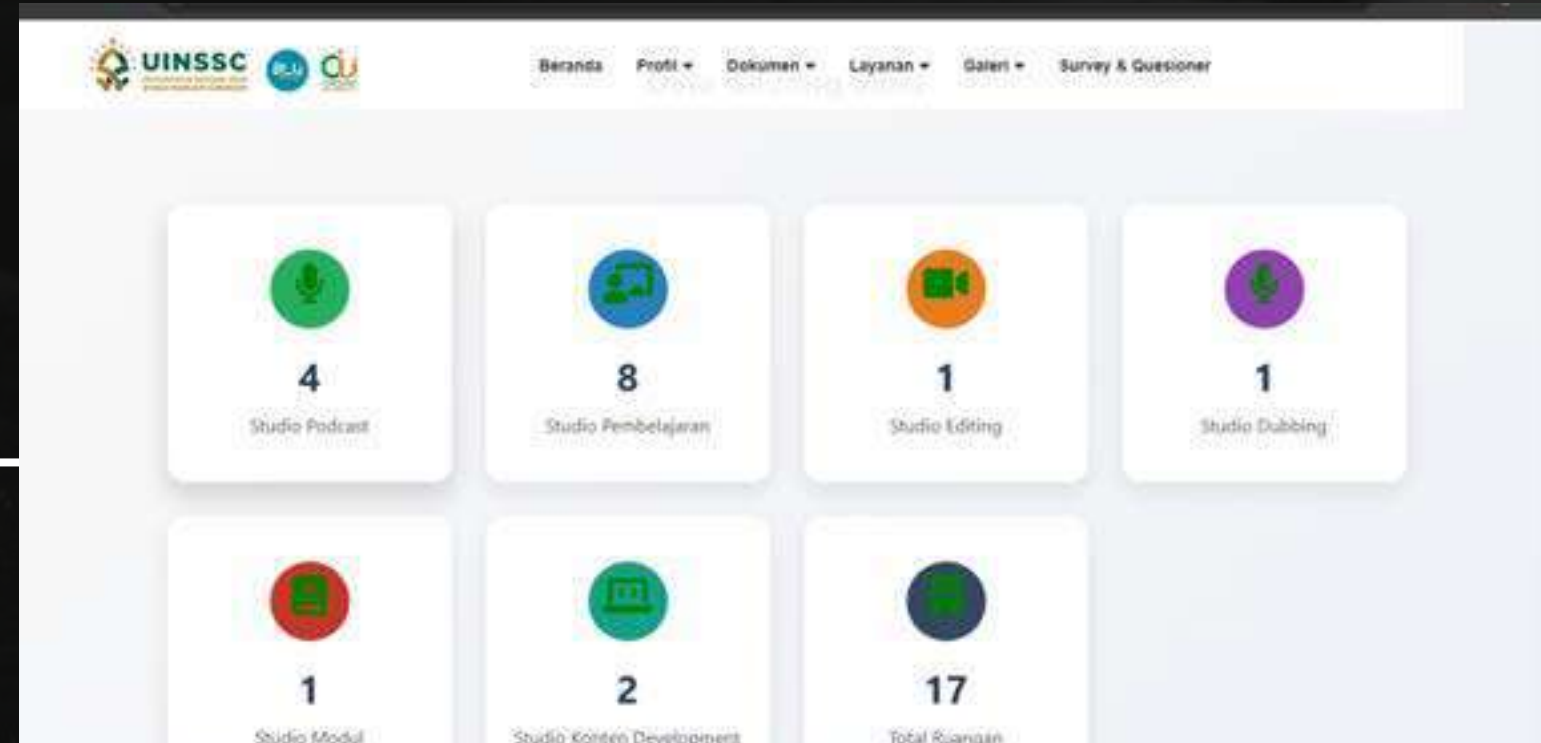

- Framework Codeiniter
- MySQL
- Bootstrap
- JavaScript

Key Features

- Laboratory Scheduling Management
- User Authentication & Authorization
- Laboratory Information System
- Administrative Dashboard
- Responsive User Interface

My Portfolio

WEBSITE SKL ANDI JAYA

My Portfolio

Description

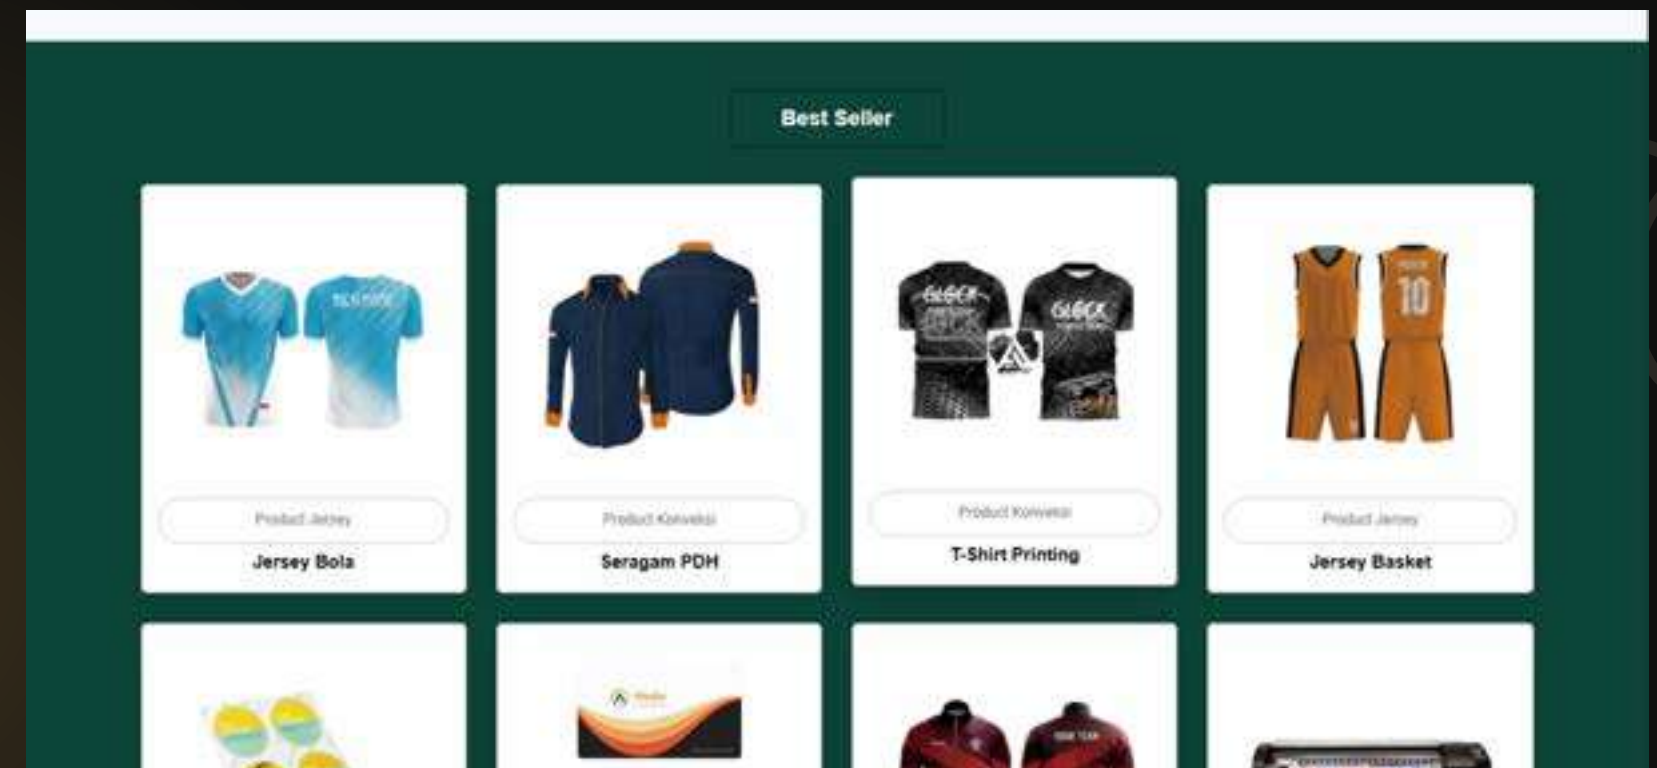

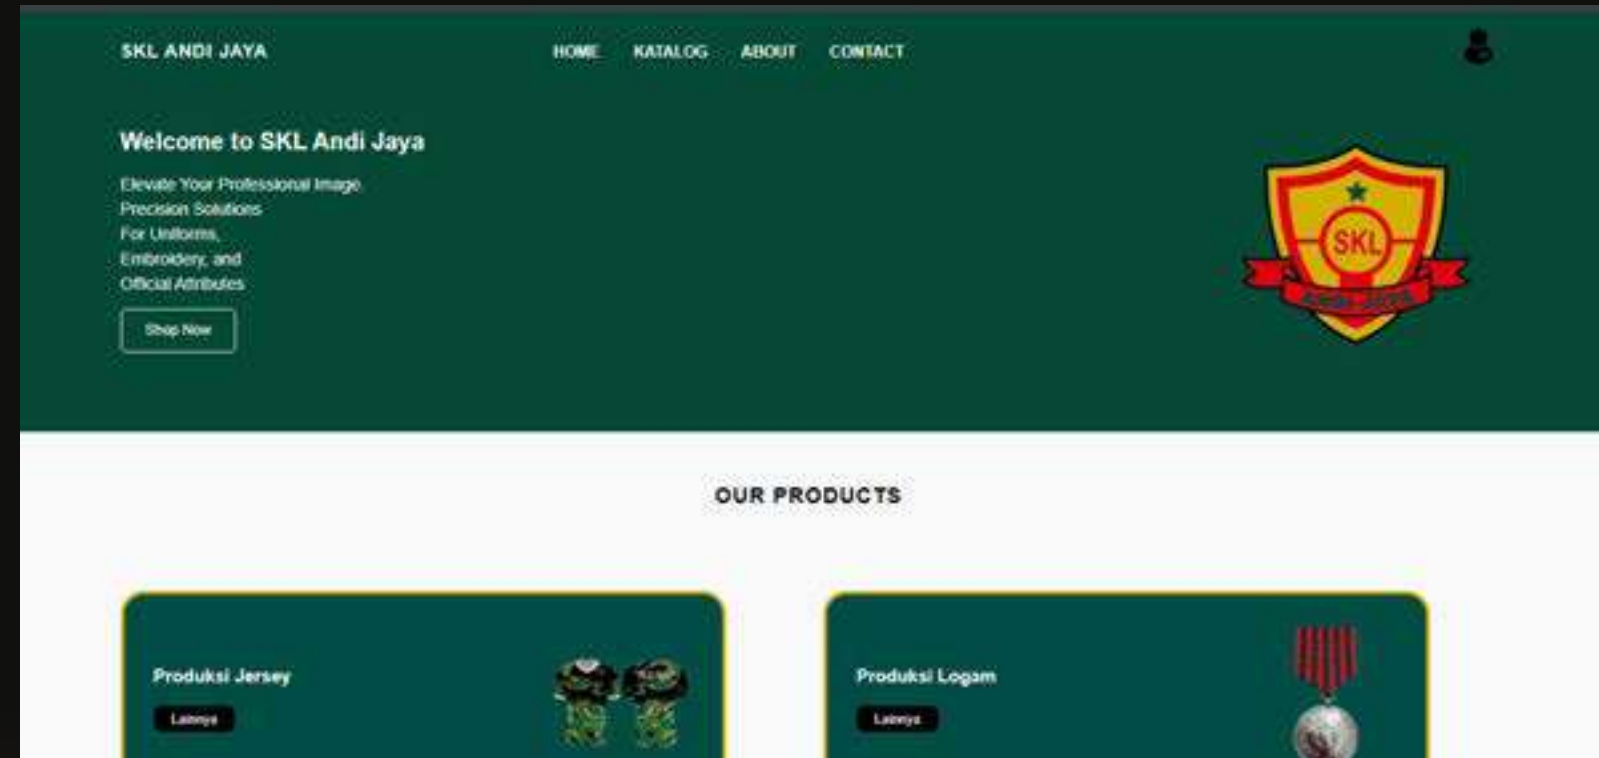

Developed a company profile and information management website for SKL Andi Jaya to enhance digital presence, improve information accessibility, and support business operations. The website provides a professional platform for presenting company information, services, organizational profiles, and business activities through an intuitive and responsive user interface.

Technologies Used

- PHP
- Laravel
- MySQL
- Bootstrap
- HTML, CSS, JavaScript

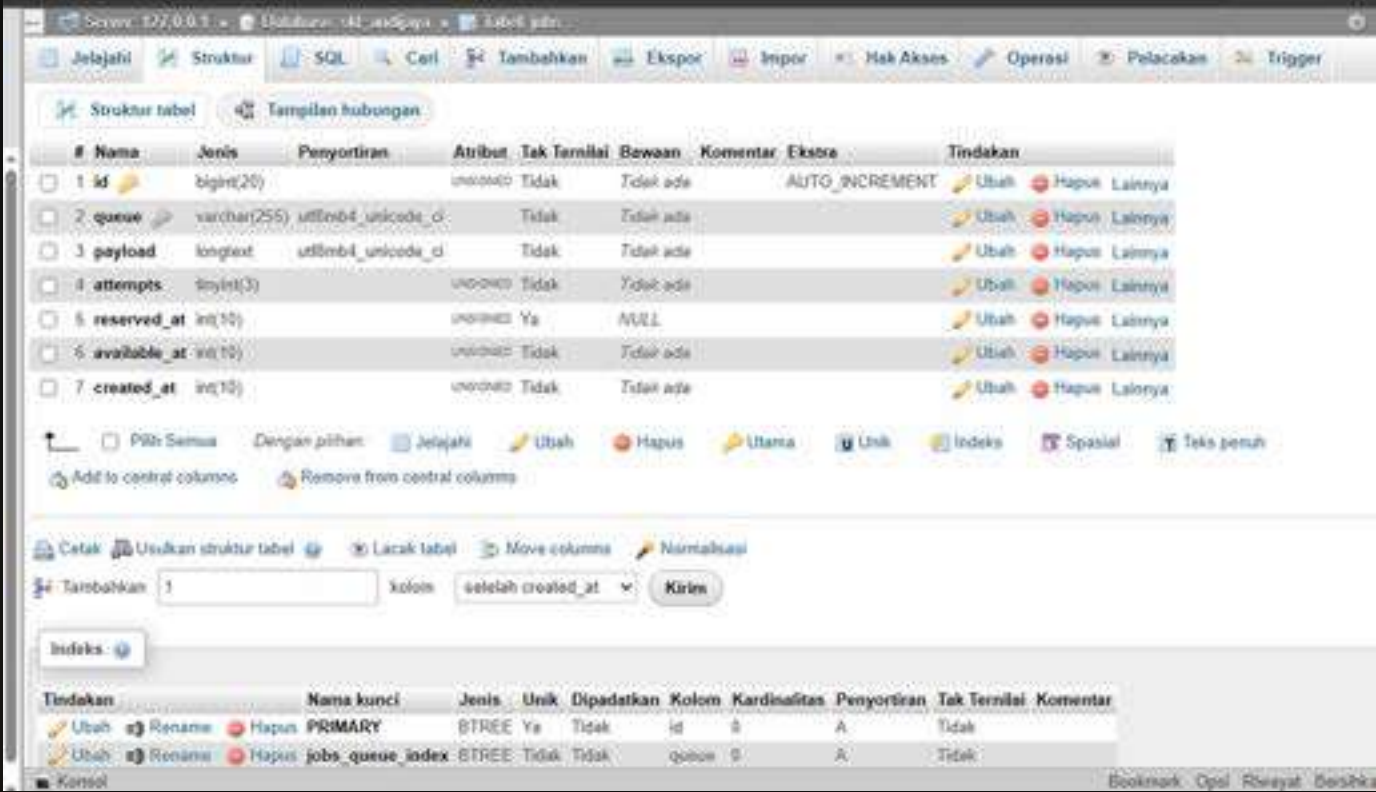

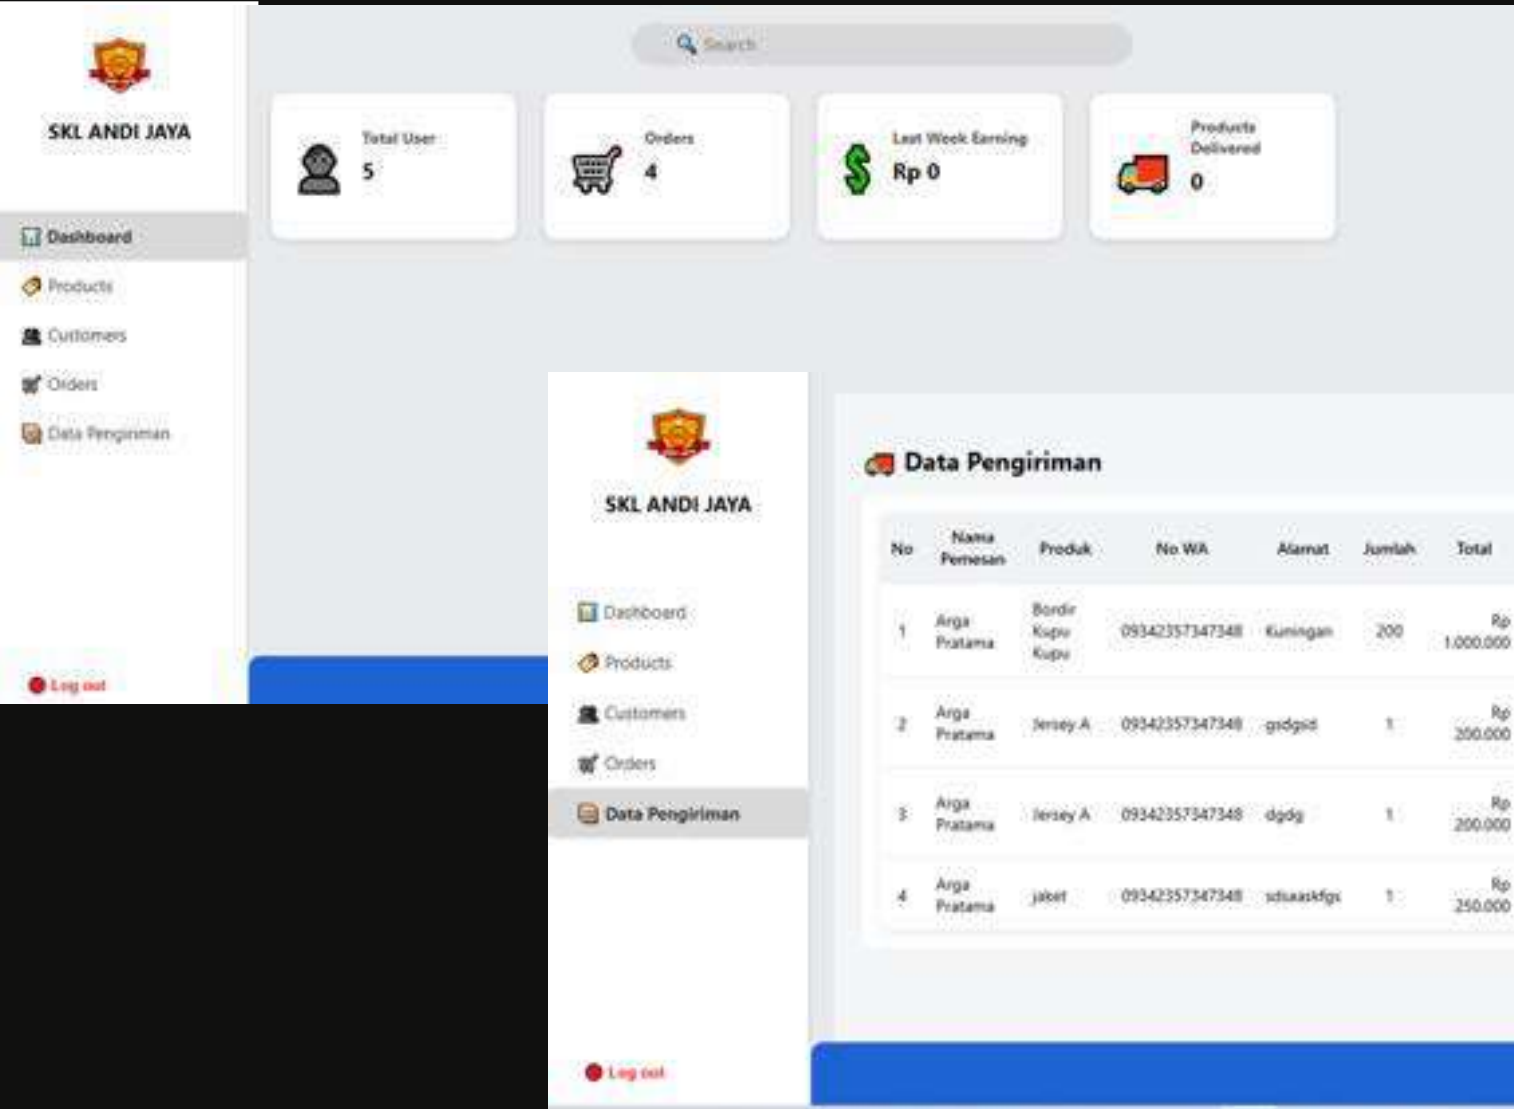

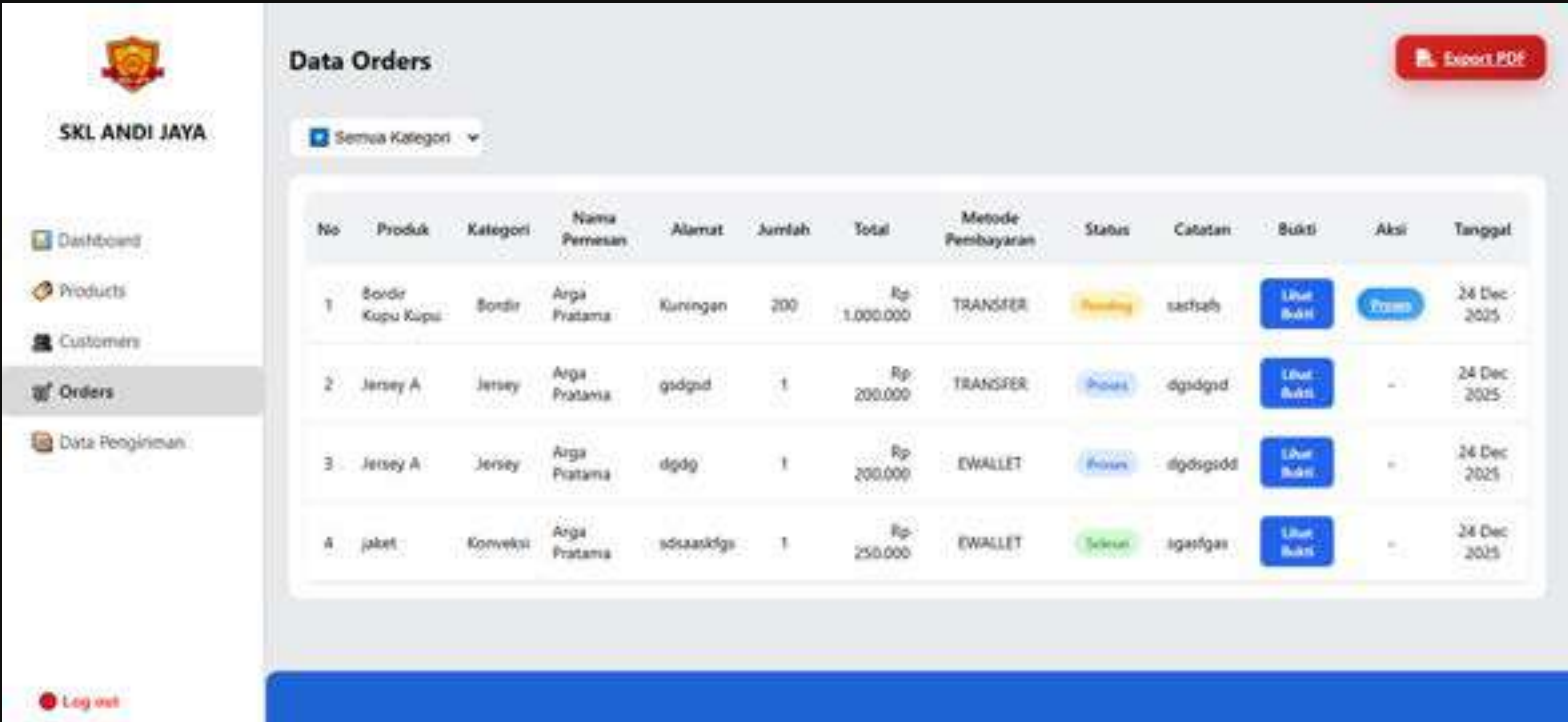

Key Features

- Company Profile Management
- Service Information Display
- News & Announcements
- Contact Information Management
- Responsive Design
- User-Friendly Interface

My Portofolio

UINSSC LAB MOBILE

My Portofolio

Description

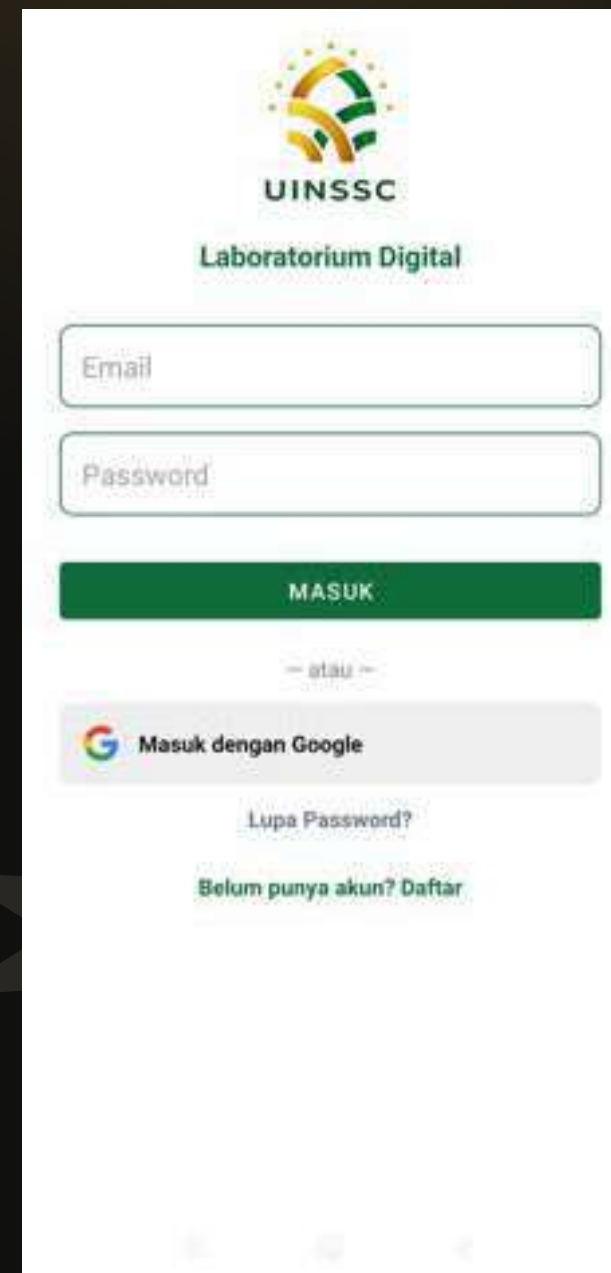

Developed a mobile-based laboratory information and management application for UIN Siber Syekh Nurjati Cirebon. The application was designed to improve accessibility to laboratory services, streamline information delivery, and support students and laboratory staff through a modern and user-friendly mobile platform.

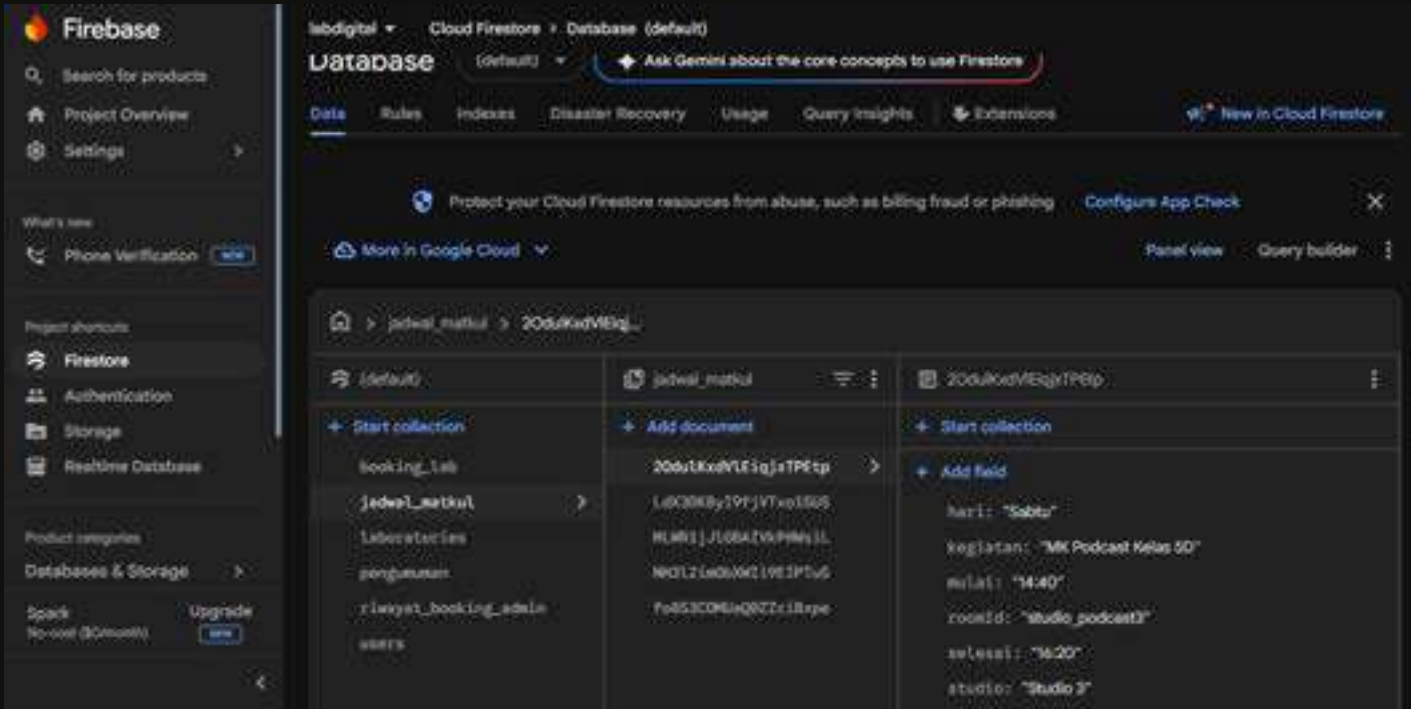

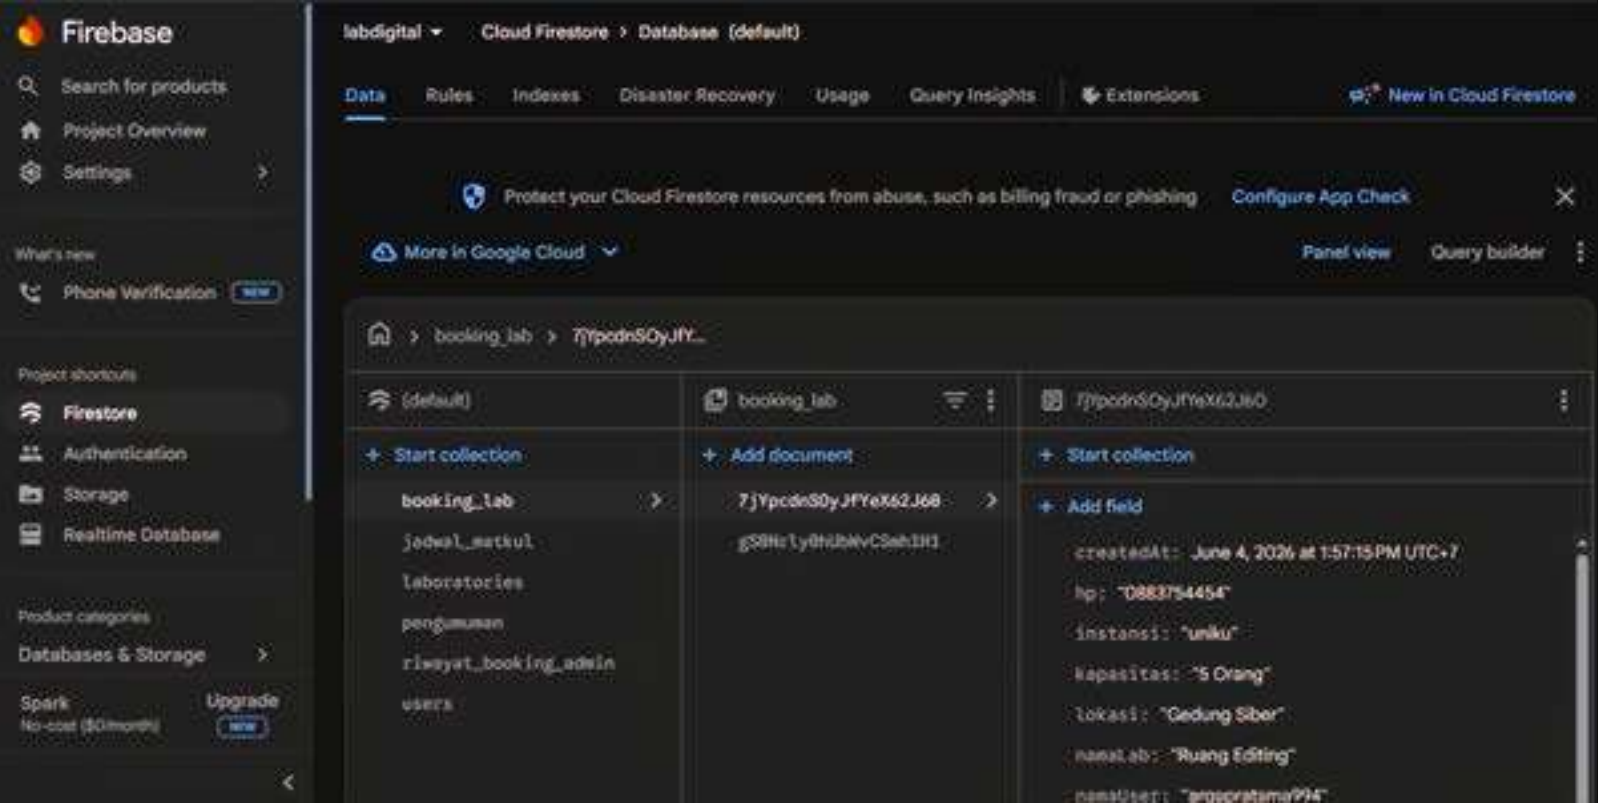

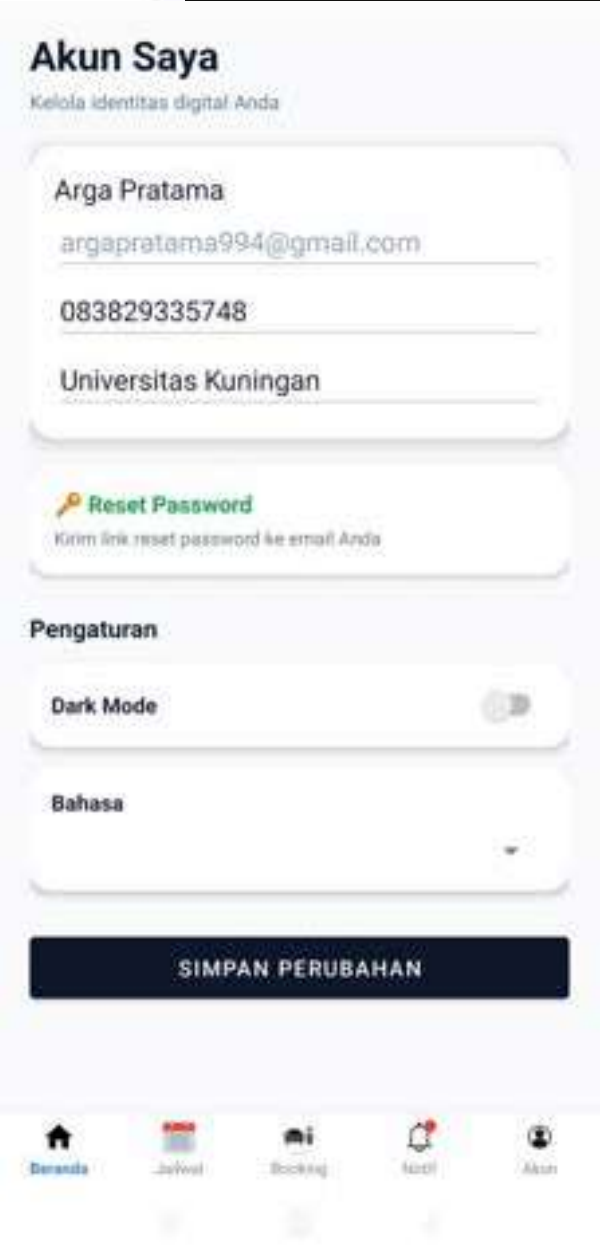

Technologies Used

- Java
- Android Studio
- Firebase Authentication
- Cloud Firestore
- XML

Key Features

- User Authentication and Account Management
- Laboratory Information Access
- Announcements and Notifications
- Laboratory Schedule Viewing
- Real-Time Data Integration
- Responsive and Intuitive User Interface

TECH WIFI MOBILE

Description

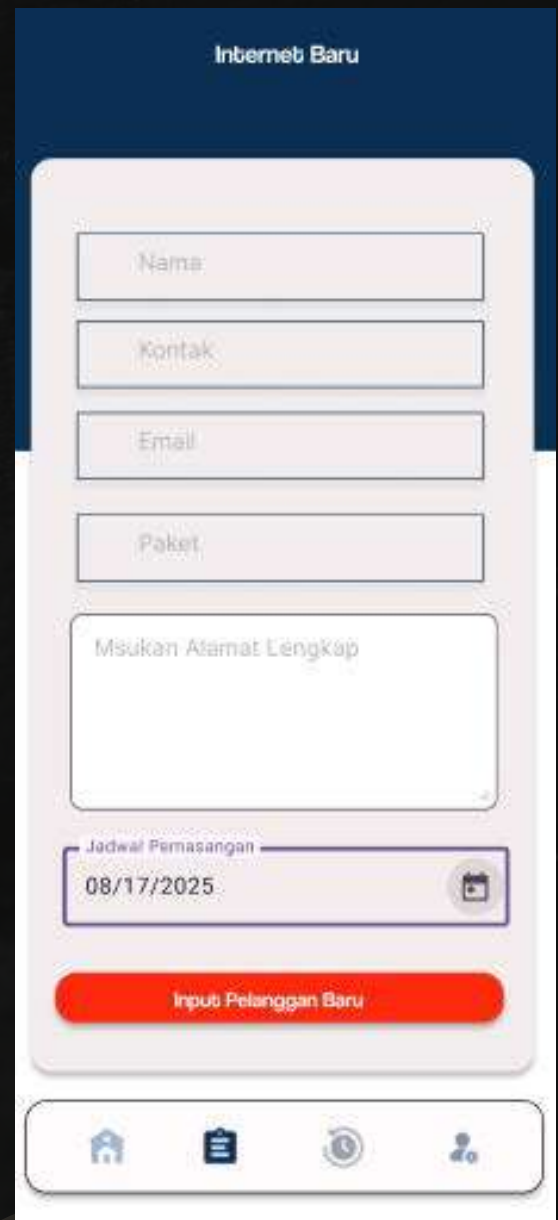

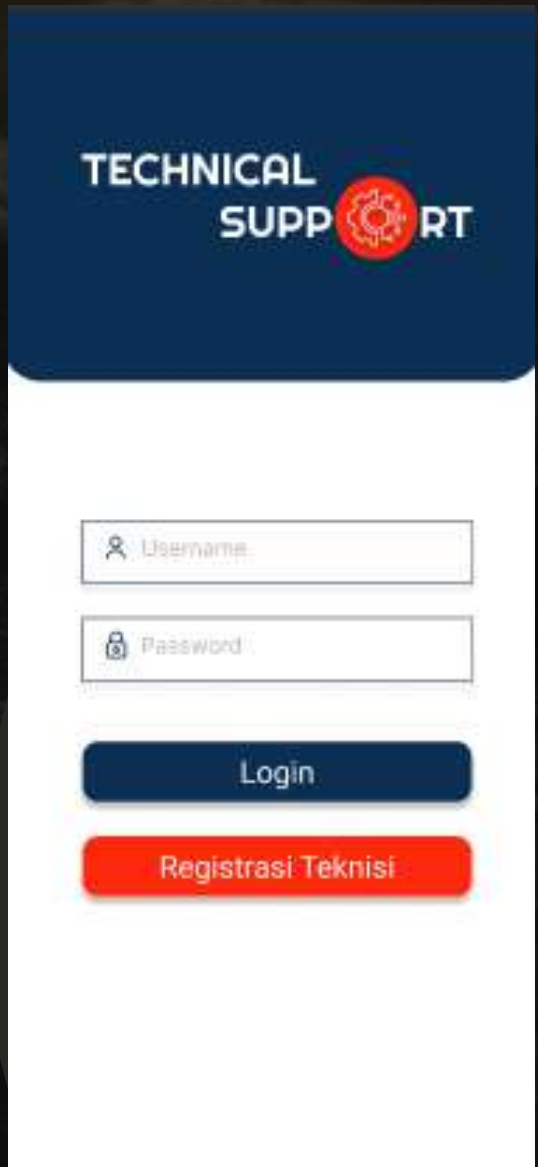

Developed an Android-based application designed to assist users in managing Wi-Fi services, monitoring network information, and accessing internet-related features through a simple and user-friendly mobile interface. The application aims to improve user convenience by providing quick access to connectivity information and service management tools.

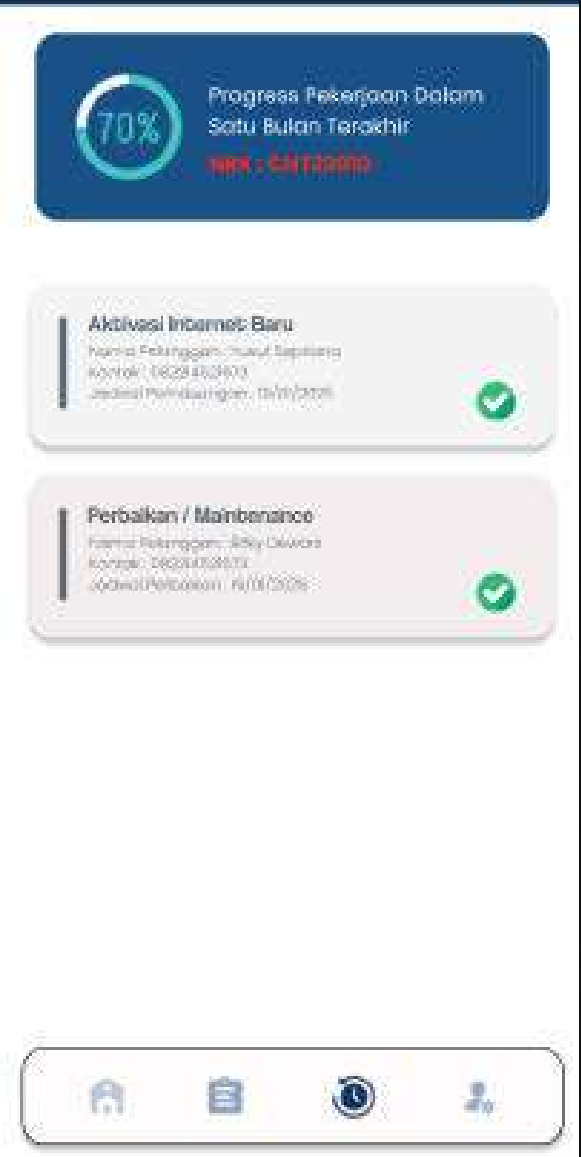

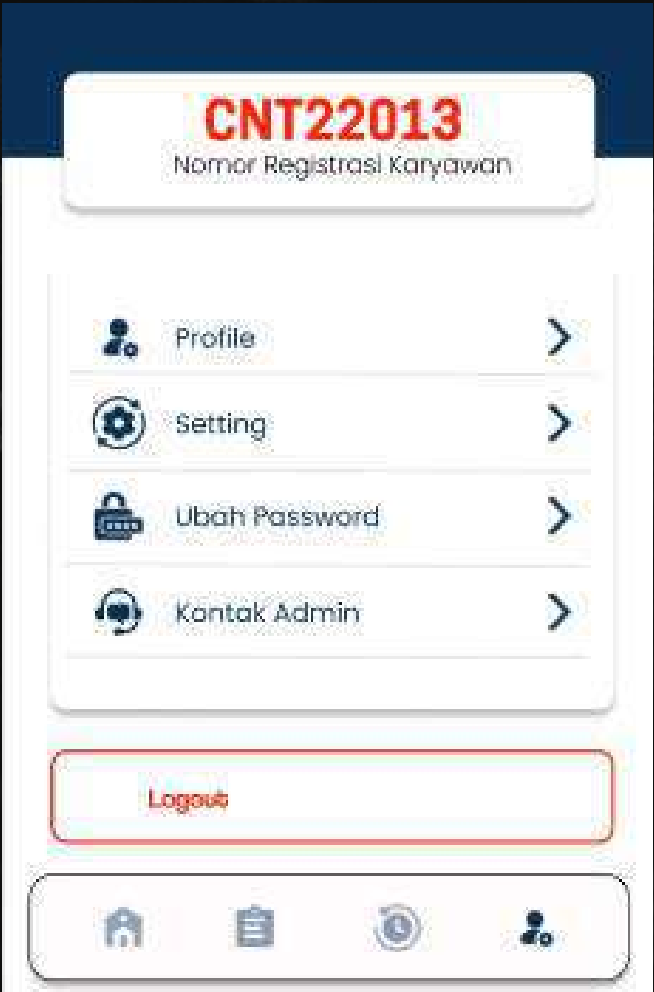

Technologies Used

- Java
- Android Studio
- Firebase Authentication
- Cloud Firestore
- XML

Key Features

- User Authentication and Account Management
- Wi-Fi Service Information
- Network Monitoring and Status Tracking
- Customer Support Access
- Real-Time Data Management
- Responsive Mobile Interface

MY OOTD MOBILE

Description

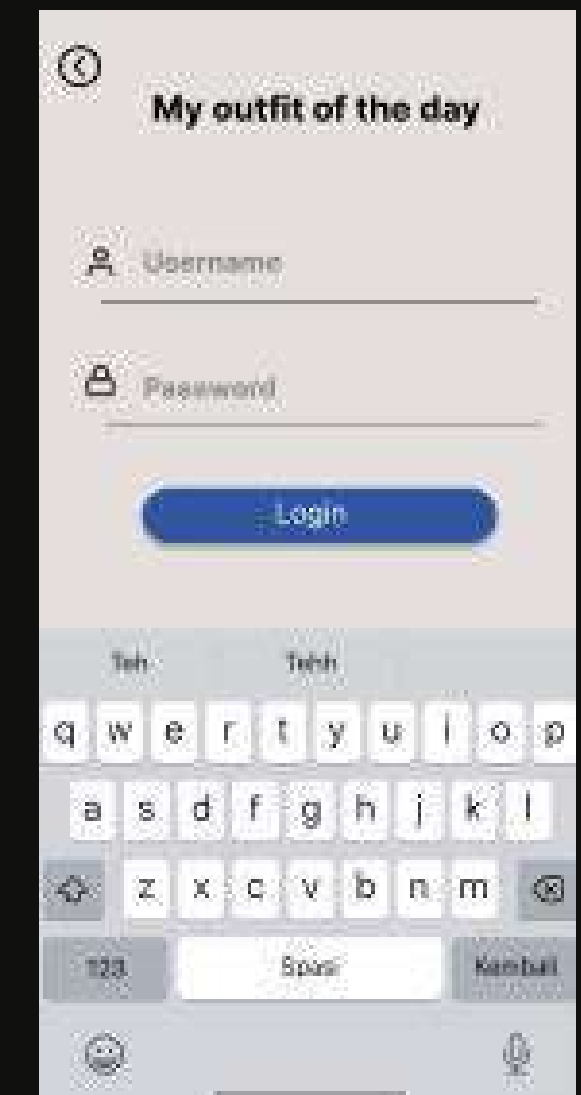

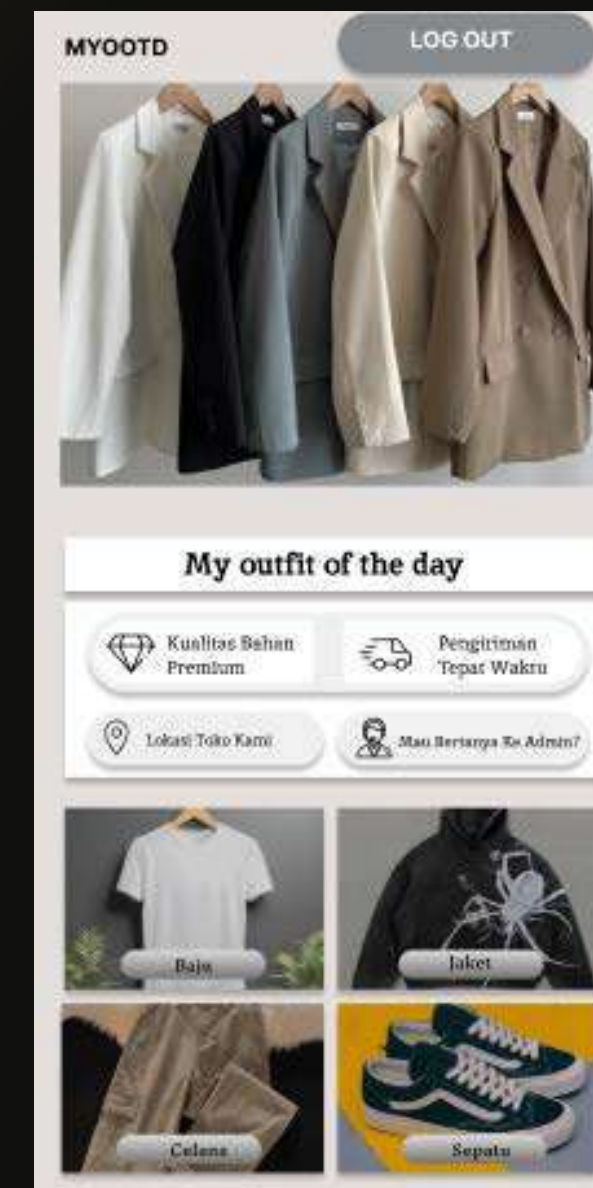

Developed an Android-based fashion and outfit recommendation application that helps users discover, organize, and explore outfit inspirations for various occasions. The application provides a modern and user-friendly platform where users can browse fashion trends, save favorite styles, and enhance their daily outfit planning experience.

Technologies Used

- Java
- Android Studio
- Firebase Authentication
- Cloud Firestore
- XML

Key Features

- User Authentication and Profile Management
- Outfit Collection and Categorization
- Fashion Inspiration Gallery
- Favorite Outfit Management
- Search and Filter Functionality
- Responsive and Intuitive User Interface

My Portofolio

My First Project

VIBETUNES MOBILE

Description

VibeTunes is my first mobile application project, developed as a music streaming and playback platform inspired by modern music applications. The project was created to explore Android development concepts, user interface design, media playback functionality, and mobile application architecture. Through this project, I gained hands-on experience in building interactive mobile applications and delivering an engaging user experience.

Technologies Used

- Java
- Android Studio
- XML
- MediaPlayer API

Key Features

- Music Playback Functionality
- Playlist Management
- Song Browsing Interface
- User-Friendly Navigation
- Responsive Mobile Design

My Portofolio

Top 5 Songs of the Month

Top 5 Lagu Pop

1. Wish You Were Here - Neek Deez
2. Makna Cinta - Rizky Febian
3. Satu Bulan - Bernadya
4. Can I Be Him - James Arthur
5. Jakarta Hari Ini - For Revenge

Choice a Song

[My Studio](#) [About Me](#)

Cari Lagu Rock

 Remember of Today - Pergi Hilang dan Lupakan	 Ayah Ibu - Karena Mereka	 Hilang Harapan - Stand Here Alone
 Serana - For Revenge	 Kita Lawan Mereka - Stand Here Alone	 Sekuat Hatimu - Last Child

Cari Lagu Indie

 Hitam Putih - Fourtwenty	 Ku Kira Kau Rumah - Amigdala	 Lara - Dialog Senja
 Rumah Ke Rumah - Hindia	 Sampai Jadi Debu - Banda Neira	 Yang Patah Tumbuh - Banda Neira

My Portofolio

Cari Lagu Barat

 Wish You Were Here - Yes	 December - Nucklup	 Faded Girl - Joplin Blues
 Night Changes - One Direction	 Blue - Yanni	 Coffee - Buscabeats
 Some of My Life - One Direction	 Nobody Else Me - SZA	 APT - Rose dan Bruno Mars
 How Long Did It Take - James Arthur	 Halo - Maroon 5	 Hello - Adele

Cari Lagu Pop

 Bernadya - Satu Bulan	 Nadin Amizah - Bertaut	 Fiersa Besari - April
 Nyoman Paul - Tunggu Apa Lagi	 Nadif Basalamah - Penjaga Hati	 Bernadya - Untungnya Hidup Terus Berjalan
 Rio Clappy - Bunga Abadi	 Andra and The Backbone - Sempurna	 Rizky Febian - Makna Cinta

APT

Artis: Rose Dan Bruno Mars

CERTIFICATIONS

IT SPECIALIST DATABASES

(Aug 2025 – Aug 2030)

Credential Overview

Successfully demonstrated proficiency in database concepts, relational database design, SQL query development, data management, and database administration practices. This certification validates the ability to design, manage, and maintain database systems while ensuring data integrity and efficient information processing.

Key Competencies

- Database Design & Modeling
- SQL Query Development
- Data Management
- Relational Database Concepts
- Database Security Fundamentals
- Data Integrity & Optimization

EDUCATIONS

UNIVERSITAS KUNINGAN

Computer Science I S1

■ 05/2022 – Present

Thesis Project : Design and Development of a Digital Laboratory Scheduling Application Using the Greedy Algorithm (Case Study: Cyber Building Laboratory, UIN Cirebon)

Organizational Experience

Head of
Futsal Student Activity Unit
05/2024 – 04/2025

- Led and coordinated organizational activities and futsal tournaments.
- Managed members and organized training schedules.
- Collaborated with university departments and external partners.

Public Relations (PR) of
Community Development Program
08/2025 – 10/2025

- Coordinated communication between the project team and local community stakeholders.
- Managed public information and promoted program activities.
- Assisted in organizing community events.

CONCLUSION

As a passionate Computer Sciences student, I am dedicated to transforming ideas into practical technology solutions through software development, web applications, mobile systems, and database management. Every project and experience has strengthened my technical expertise, adaptability, and problem-solving abilities. I am eager to contribute to innovative teams, embrace new challenges, and continuously grow while creating value through technology.

Thank you for taking the time to review my portfolio. I sincerely appreciate your time and consideration. I look forward to opportunities where I can contribute my skills, continue learning, and grow as a technology professional.
